## PRAKTEK MEMBUAT DATABASE

Nama: GILANG MAULANA

Kelas: Xi E TKJ

## Membuat Database Dan User Di XAMPP

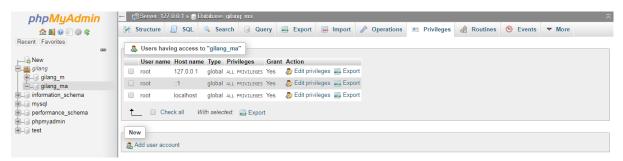

1. Pertama-tama masuk ke phpmyadmin di XAMPP. Caranya, ketik di browser dengan alamat localhost/phpmyadmin sehingga muncul tampilan seperti berikut ini.

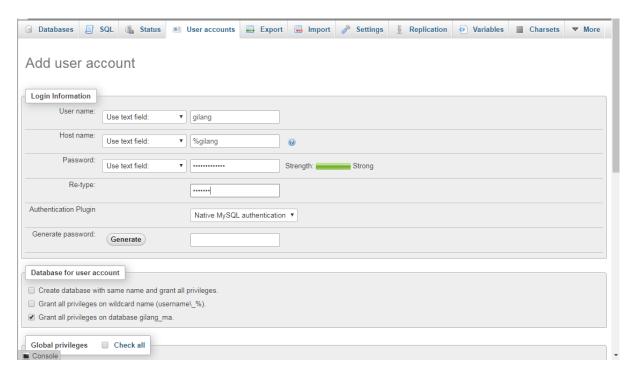

2. Pada menu "Database", silahkan masukkan nama database yang diinginkan, kemudian klik "Create".

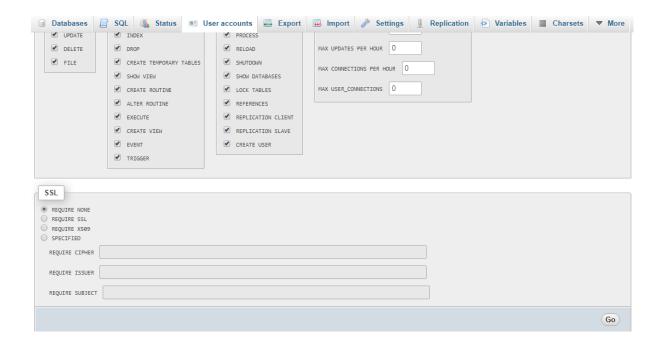

3. Selanjutnya menambahkan nama "user" untuk database yang baru saja Anda buat. Silahkan masuk ke database yang sudah dibuat. Anda bisa menemukannya di bagian sebelah kiri. Setelah itu, klik Nama database tersebut kemudian klik menu "Privileges". Lanjutkan dengan klik "Add user".

4. Setalah Anda klik "Add User" maka akan muncul form pembuatan user baru. Pada kolom "username", Anda bisa mengisikannya dengan nama apapun yang Anda inginkan. Kemudian isikan juga "host", gunakan "use text field" saja, lalu isikan dengan "localhost". Selanjutnya isikan "password" 2 kali dan harus sama. Terakhir, ceklist "grant all privileges on database".

5. Scroll ke bawah, dan Anda akan menemukan opsi "Global Privileges" guna memberikan hak akses kepada user untuk mengelola semua database, klik "Check All". Setelah itu, klik tombol "Add User".

Langkah membuat database dengan XAMPP dan user di phpmyadmin sudah selesai

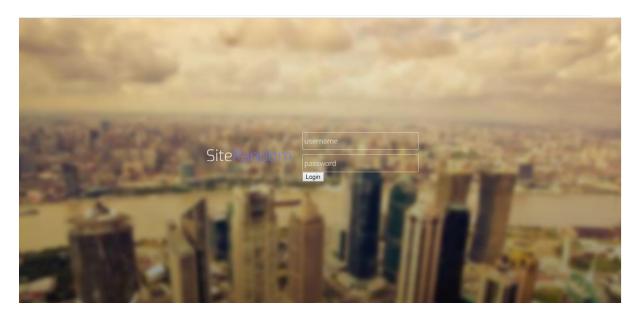

## Kemudian buat program php

- 1. proses.php
- 2. koneksi.php
- 3. cek.php
- 4. index.php
- 5. login.php

```
prosses.php
            k?php
             $username=$_POST['username'];
             $password=$_POST['password'];
             include "koneksi.php";
           $\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\}$}}}$}\text{$\text{$\text{$\text{$\text{$\text{$\text{$\text{$\e
           session_start();
           $session['username']=$ambil['username'];
$session['password']=$ambil['password'];
           header('location:index.php');
                                header('location:login.php');
                                                                                                                                                         keluar.php
     k?php
      session_start();
     session_destroy();
    header('location:login.php');
      ?>
      koneksi.php
$koneksi=mysqli_connect('localhost','root','','gilang_m');
 ?>
```

Kemudian masuk ke crom dengan ling "http://localhost:8080/login/login.php"

Akan tampil sebagai berikut:

Masukan username dan password dan akan muncul sebagai berikut:
